Directions for the following 2 (two) items: Read the following passage and answer the items that follow the passage. Your answers to these items should be based on the passage only

Passage - 1

Native to India, sal is the second most important tree after teak. It is valued for its use in furniture making, construction, the leaf-plate industry and for the oil obtained from its seeds. However, thousands of sal trees are destroyed every year due to borer infestations. The sal borer, a dark brown insect about the size of a human finger, is regarded as one of the most serious threats to forestry in India. Although it can infest other trees such as shisham, deodar, rubber and fruit trees, it causes the greatest damage to sal, where it lives and reproduces. The insect usually attacks weak or damaged trees, but healthy ones may also be affected. It is attracted to the sap and resin that flow from a wounded tree. As a result, freshly cut or injured sal trees quickly draw these insects, which bore into the wood and hollow it out within a few days.

Q.46) Which one of the following statements best reflects the crux of the passage?

a) The sal borer is a particularly destructive pest because it attacks not only diseased trees but also healthy ones.
b) As the sal borer can infest several tree species, it is regarded as a major hindrance to forest conservation.
c) Sal borer is a major threat to the conservation and propagation of sal, which is an important commercial species.
d) Since the sal borer hollows out the tree within a few days, the scope for conservationists to revive the tree is minimal.

निम्नलिखित 2 (दो) प्रश्नों के लिए निर्देश:
नीचे दिए गए परिच्छेद को पढ़ें और उसके बाद आने वाले प्रश्नों के उत्तर दें। इन प्रश्नों के उत्तर केवल परिच्छेद पर आधारित होने चाहिए।

परिच्छेद - 1

भारत में मूल रूप से पाए जाने वाला साल, सागौन के बाद दूसरा सबसे महत्वपूर्ण वृक्ष है। फर्नीचर निर्माण, निर्माण उद्योग, पत्तल उद्योग और इसके बीजों से प्राप्त तेल के लिए इसे महत्व दिया जाता है। हालांकि, हर वर्ष बोरर संक्रमण के कारण हजारों साल के वृक्ष नष्ट हो जाते हैं। साल बोरर, मानव उंगली के आकार का एक गहरा भूरा कीट, भारत में वानिकी के लिए सबसे गंभीर खतरों में से एक माना जाता है। हालांकि यह शीशम, देवदार, रबर और फलों के वृक्षों को भी संक्रमित कर सकता है, लेकिन यह साल को सबसे अधिक नुकसान पहुंचाता है, जहां यह निवास करता है और प्रजनन प्रक्रिया संपन्न करता है। कीट आमतौर पर कमजोर या क्षतिग्रस्त वृक्षों पर हमला करते हैं, लेकिन स्वस्थ वृक्ष भी प्रभावित हो सकते हैं। यह क्षतिग्रस्त वृक्ष से निकलने वाले रस (सैप) और गोंद (रेजिन) से आकर्षित होता है। परिणामस्वरूप, हाल ही में काटे गए या क्षतिग्रस्त साल के वृक्ष इन कीटों को तुरंत आकर्षित करते हैं, जो लकड़ी में छेद करते हैं और कुछ ही दिनों में उसे खोखला कर देते हैं।

Q.46) निम्नलिखित में से कौन सा कथन परिच्छेद के सार को सर्वोत्तम रूप से दर्शाता है?
a) साल बोरर एक विशेष रूप से विनाशकारी कीट है क्योंकि यह न केवल रोगग्रस्त वृक्षों पर बल्कि स्वस्थ वृक्षों पर भी हमला करता है।
b) चूंकि साल बोरर कई वृक्ष प्रजातियों को संक्रमित कर सकता है, इसलिए इसे वन संरक्षण में एक प्रमुख बाधा माना जाता है।
c) साल बोरर साल के संरक्षण और प्रसार के लिए एक प्रमुख खतरा है, जो एक महत्वपूर्ण व्यावसायिक प्रजाति है।
d) चूंकि साल बोरर कुछ ही दिनों में वृक्ष को खोखला कर देता है, इसलिए संरक्षणवादियों के पास वृक्ष को पुनर्जीवित करने की गुंजाइश न्यूनतम होती है।

a) Jawaharlal Nehru
b) C. Rajagopalachari
c) Muhammad Ali Jinnah
d) Subhas Chandra Bose

Ans) d
Exp) Option d is the correct answer.
Subhas Chandra Bose was a special invitee in the three-day meeting of the Congress Working Committee from September 9, 1939 to decide India's position on the Second World war. According to Bose the war served as a golden opportunity for India to launch a civil disobedience movement in order to win independence. But the Congress Working Committee resolution asked the British government to clarify its position on the war with regard to imperialism and democracy and till such time, postponed the decision of the Congress on the matter. Subhas Chandra Bose was critical of the position of compromise taken by the Congress.

I. The promise of dominion status to India after victory in the Second World war.
II. The creation of a separate nation Pakistan after the Second World War.
III. A Constituent Assembly to be convened after the Second World war to frame a constitution for India.
Select the correct answer from the code given below:
a) III only
b) I and III only
c) I and II only
d) I, II and III

Ans) b
Exp) Option b is the correct answer.
At the outbreak of World War II, the Indian National Congress demanded a clear declaration of British war aims and the establishment of a responsible national government in India as a condition for supporting the war effort. However, the British government refused to concede these demands and unilaterally involved India in the war, leading to the resignation of Congress ministries in 1939. Subsequently, as the war situation in Europe deteriorated for Britain and nationalist pressure intensified, the British government sought to secure Indian cooperation by announcing the August Offer in 1940.
Option I is correct. Viceroy Linlithgow in the August Offer, 1940 **offered the promise of dominion status after victory in the Second World war**.
Option II is incorrect. The August Offer of 1940, made by the British Viceroy of India, Lord Linlithgow, was not accepted by either the Indian National Congress or the Muslim League. The Muslim League rejected the offer as it did not explicitly accept the demand for a separate Muslim state, Pakistan.
Option III is correct. Viceroy Linlithgow in the August Offer, 1940 **offered** the formation of a constituent assembly **after the Second World war** to frame India's constitution.

a) The entire population of Muslim majority areas in the North-West and North-East India would go for a plebiscite to decide on forming a separate sovereign state.

c) The Muslim League was to cooperate with the Indian National Congress in forming a provisional government at centre.
d) The terms of the Formula were to be operative only if England transferred full powers to India.

Ans) b
Exp) Option b is the correct answer.

Statement b is incorrect: The CR Formula proposed that the boundaries would be determined by a **Commission appointed for the purpose**, not by representatives elected on the basis of joint electorates. The Formula proposed a post-war commission to demarcate Muslim-majority regions, with a plebiscite based on adult suffrage for everyone, including non-Muslims, to determine if they wanted to join Pakistan.

The main points in the CR Plan were:

- After the end of the war, the **entire population of Muslim majority areas in the North-West and North-East India decided by a plebiscite,** whether or not to form a separate sovereign state. Thus, **Statement a is correct.**
- **Muslim League to endorse Congress demand for independence.** The League was to also cooperate with Congress in forming a provisional government at centre. Thus, **Statement c is correct.**

Statement II is incorrect: Under the Act, the Council of States (Upper House of the Federal Legislature) was not entirely nominated. Of the 260 members, 156 were from British India, elected through indirect or direct elections depending on the category and 104 were to be nominated by the rulers of the Princely States. Therefore, it was a mixed body, not wholly nominated.
Statement III is correct: The act abolished dyarchy in the provinces and introduced 'provincial autonomy' in its place. **The distinction between reserved and transferred subjects were removed and the whole administration was entrusted with the ministers responsible to the legislature.** The provinces were allowed to act as autonomous units of administration in their defined spheres.
Statement IV is correct: **In the federal scheme of the Act, residuary legislative powers were not assigned to the federal legislature or provinces but were vested in the hands of Governor-General.** The Governor-General was empowered to authorise, either the Federal or the Provincial Legislature to enact a law with respect to any residuary matter.

a) Civil Disobedience Movement
b) Swadeshi Movement
c) Quit India Movement
d) Chittagong Armoury Raid

Ans) c

Exp) Option c is the correct answer

Kanaklata Barua and Matangini Hazra, the two freedom fighters sacrificed their lives during the Quit India Movement.

- **Kanaklata Barua was one of the youngest martyrs of the Quit India Movemen**t. At the age of 17, she led the Mrityu Bahini, a procession of freedom fighters, to unfurl the Tricolour at Gohpur police station on September 20, 1942. When police did not let them move forward, an altercation led to firing, killing her at the head of the procession.
- **Matangini Hazra** at the age of 61, was arrested for taking part in the Civil Disobedience Movement in 1930 and the Salt March led by Gandhi. She then took active participation in Quit India Movement. She led a large procession of around 6,000 protesters, mostly women. The procession marched with the aim to take over the Tamluk police station from British authorities. In the skirmish that followed between protesters and the police, Hazra stepped forward to appeal to the police to not shoot at the procession. Her pleas went unheard and British police personnel shot at her thrice. She collapsed and died, chanting 'Vande Mataram'.

Select the correct answer using the code given below:

a) I and III only

b) II only

c) I and II only

d) None of the above

Ans) b

Exp) Option b is the correct answer.

During World War II, the British government faced mounting military and diplomatic pressure to secure Indian cooperation in the war effort. In this context, **a mission headed by Stafford Cripps, was sent to India in March 1942.** The mission aimed to negotiate a constitutional settlement that would obtain the support of Indian political leaders while Britain continued the war against the Axis powers.

The proposals placed before Indian leaders included the following points:

Statement I is incorrect. A **Constituent Assembly would be convened after the war** to frame a new constitution. The assembly was to have members from British India and native (princely) states, in accordance with their population. Unless Indian leaders decided on a different method, **members of the Constituent Assembly of the provinces were to be elected by the lower house of provincial legislatures by means of popular vote, and the Indian princes were to appoint their own representatives**.

Statement II is correct. Cripps Mission of 1942 **allowed the provinces the right to be a part of or remain outside the Indian union**. Provinces desiring to remain outside could draft their own constitution and be granted the status of union government directly by Britain

Q.22) During the freedom struggle of India, the Congress Working Committee (CWC), which met in October 1939, rejected the Viceroy's statement that Britain was resisting aggression in the Second World War. In this context, the Congress Working Committee decided:
a) not to support the War, and called upon the Congress ministries to resign as a protest.
b) not to support the War, and authorised Mahatma Gandhi to launch a mass civil disobedience movement.
c) not to support the War, and called upon all government officers to resign from their posts.
d) not to support the War unless the British government declares its war aims and establishes full democracy in India.

Ans) a
Exp) Option a is the correct answer.
The earlier Congress position regarding the Second World War that it condemned Fascist aggression. But at the same time, it said if Britain was fighting for democracy and freedom, it should be proved by ending imperialism in its colonies and establishing full democracy in India. In particular, Britain should declare how her war aims would be implemented in India at the end of the War.
But Linlithgow, the Viceroy, refused to define Britain's war aims beyond stating that Britain was resisting aggression. As an immediate measure, he offered to set up a consultative committee whose advice might be sought by the Government whether it felt it necessary to do so.
The Congress Working Committee, meeting on 23 October, 1939 rejected the statement given by Viceroy as a reiteration of the old imperialist policy - CWC decided not to support the War, and called upon the Congress ministries to resign as a protest. But the Congress leadership still stayed its hand and was reluctant to give a call for an immediate and a massive anti-imperialist struggle. In fact, the Working Committee resolution of 23 October warned Congressmen against any hasty action.

Q.32) With reference to the Quit India Movement of 1942, consider the following organisations/associations:

I. The Communist Party of India

II. The Muslim League

III. The Hindu Mahasabha

IV. Congress Socialist Party

How many of the above actively participated in the Quit India Movement?

a) Only one

b) Only two

c) Only three

d) All the four

Ans) a

Exp) Option a is the correct answer.

The Quit India Movement was launched by the Indian National Congress in August 1942 after the failure of the Cripps Mission.

Option I is incorrect: The Communist Party of India did not participate. After Operation Barbarossa when Germany launched invasion of Russia, they supported the British war effort, redefining the war from an "imperialist war" to a "people's war.

Option II is incorrect: The Muslim League opposed the movement. The League feared that the Muslim minority would be left exposed to Hindu majority dominance with no constitutional safeguards in place. Jinnah and the League leadership thus not only stayed away from the movement but effectively took a position that aligned with British interests in 1942.

Option III is incorrect: The Hindu Mahasabha boycotted the Quit India Movement and did not actively participate in it. V.D. Savarkar, who headed the Mahasabha at the time, actively discouraged members from joining the movement and instead urged Hindus to remain in government services and the military.

Option IV is correct: Congress Socialist Party played a pivotal role in organising the Quit India movement in 1942. The party under the leaderships of Jay Prakash Narayan and Ram Manohar Lohia spearheaded the movement when top leadership of INC was arrested following the AICC session at Gowalia Tank Bombay on 9 Aug 1942.

Q.33) With reference to the Individual Satyagraha during the freedom struggle of India in the 1940s, consider the following statements:

I. It was started primarily to assert the right to free speech

II. Mahatma Gandhi called off the movement following the rise of violent incidents in different parts of the country.

Which of the statements given above is/are correct?

a) I only

b) II only

c) Both I and II

d) Neither I nor II

Ans) a

Exp) Option a is the correct answer.

Individual Satyagraha was a limited form of protest started by Mahatma Gandhi in 1940 during World War II. It was a non-violent movement where selected individuals, not masses, protested against British rule.

Statement I is correct. The struggle was mainly based on the **principle of freedom of speech**. Under the **Defence of India Act, 1939** the colonial government could suppress speeches, writings, and protests against the war effort. Any public criticism of India's forced participation in World War II could lead to arrest and imprisonment. Thus **Gandhiji started the movement mainly to assert the right to free speech**. It was formulated a protest not against India's war effort as such but against the prohibition to protest against it.

Statement II is incorrect. The centerpiece of Individual Satyagraha was non-violence which could only be achieved by selecting the Satyagrahis. Selected Satyagrahi were chosen having non-violent background like Acharya Vinoba Bhave, Pt. Jawaharlal Nehru and Brahma Dutt. **This movement never became violent.**

a) Scorpene-class submarines
b) Unmanned Aerial Vehicles
c) Advanced space launch vehicles
d) Precision air-launched missiles

Ans) d
Exp) Option d is the correct answer.
HAMMER, SCALP, and METEOR are precision air-launched missiles deployed from Rafale fighter jets during Operation Sindhoor.
SCALP (Storm Shadow) is an air-launched cruise missile designed for long-range, deep-strike missions with stealth capabilities. With a range of 450 km, its high accuracy is achieved through an advanced navigation system combining INS, GPS, and terrain referencing. Manufactured by MBDA(Matra BAE Dynamics Alenia), the Scalp missile is particularly effective for penetrating hardened bunkers and ammunition depots.
HAMMER (Highly Agile Modular Munition Extended Range) is a smart, precision-guided air-to-ground weapon deployed by the Indian Air Force on Rafale fighter jets. With a range of 50–70 km, it is suitable for short- to mid-range precision strikes, providing the IAF with enhanced flexibility and accuracy in tactical operations.
The Meteor is a next-generation Beyond Visual Range Air-to-Air Missile (BVRAAM) developed by European partners under MBDA. India employs the Meteor missile with its Dassault Rafale jets and plans to integrate it with the indigenous Tejas Mk1A aircraft. The missile enhances India's air combat capabilities through long-range engagement, high speed, and a large "no-escape" zone, significantly strengthening air superiority and strategic deterrence.

Q.36) With reference to the Royal Indian Navy (RIN) Revolt, 1946, during the freedom struggle of India consider the following statements:
I. It primarily began as a protest against the trial of Rashid Ali, an Indian National Army (INA) officer
II. It received official support from both the Indian National Congress and the Muslim League.
Which of the statements given above is/are correct?
a) I only
b) II only
c) Both I and II
d) Neither I nor II

Ans) d
Exp) Option d is the correct answer.
Statement I is incorrect: The Royal Indian Navy Revolt began on 18th February 1946 at HMIS Talwar in Bombay. **The naval ratings protested against poor quality food, low pay, harsh discipline and racial discrimination by British officers. These immediate grievances triggered the wider revolt among naval personnel.**
On 11 February 1946 Muslim League, Congress and Communist students went in a procession to protest against the trial of Rashid Ali. Royal Indian Navy revolt was not primarily related to trial of Rashid Ali, an INA officer
Statement II is incorrect: Although the revolt evoked public sympathy, the major political parties the Indian National Congress and the All-India Muslim League did not provide official support. Their leadership advised the ratings to surrender, fearing uncontrolled violence and disruption during the sensitive phase of constitutional negotiations.

Q.38) With reference to the Cabinet Mission Plan (1946), consider the following statements:
I. It proposed the partition of India and creation of two sovereign states.
II. It proposed that all subjects other than the Union subjects and all residuary powers should be vested in the Provinces.
III. It proposed a unique three-tier federation.
IV. It recommended the formation of a Constituent Assembly.
Which of the statements given above are correct?
a) II and III only
b) II and IV only
c) I, III and IV
d) II, III and IV

Ans) d
Exp) Option d is the correct answer.
Statement I is incorrect: The Cabinet Mission Plan aimed to preserve the unity of India and did not propose the partition of India into two sovereign states. **The Cabinet Mission explicitly rejected the demand for a sovereign Pakistan.**
Statement II is correct: Under the Plan, the Central Government (Union) was to have powers only over Defense, Foreign Affairs, and Communications. All other powers were to remain with the provinces. **Thus, residuary powers were vested in the provinces, indicating a weak central structure.**
Statement III is correct: The Cabinet Mission plan made a proposal under which provinces should be free to form groups with executives and legislatures, and each group could determine the provincial subjects to be taken in common'. This would create a third-tier of government between the Union and the provinces which would be a unique three-tier federation.
Thus the plan proposed a unique three-tier federation consisting of the Union, Groups of Provinces, and individual Provinces.
Statement IV is correct: **The Cabinet Mission recommended the formation of a Constituent Assembly composed of representatives elected by provincial legislatures and nominated from princely states.** This body was tasked with framing the Constitution for the Union, the Groups, and the Provinces.

I. It is developed indigenously by the Indian Space Research Organization.
II. It operates through a cluster of satellites positioned in Low Earth Orbit (LEO).
III. It facilitates the identification of illegal fishing and smuggling activities in the Indian Ocean Region.
Which of the statements given above is/are correct?
a) I only
b) II and III

Q.44) It was a revolt by workers and peasants against the autocratic Travancore monarchy in 1946. It was led by the Communist Party of India. The revolt arose in opposition to the Diwan's proposal to keep Travancore independent of the Indian Union, an idea modeled on the American presidential system.
Which of the following movements is described above?
a) Revolt of Dhundia
b) Diwan Velu Thampi's Revolt
c) Punnapra-Vayalar Uprising
d) Waghera Rising

Ans) c
Exp) Option c is the correct answer.

The **Punnapra-Vayalar uprising of 1946 was a mass revolt by workers and peasants against the autocratic Travancore monarchy** and the autocratic rule of Diwan C.P. Ramaswami Iyer. Rooted in the coastal belt of Alappuzha, particularly in the villages of Punnapra and Vayalar, the **movement was spearheaded by the nascent Communist Party of India**, which mobilised coir workers, agricultural labourers and tenants who were bearing the brunt of feudal exploitation and starvation in the wake of World War Two.

At the **heart of the protest was rising discontent against the Diwan's proposal to keep Travancore an independent nation**, separate from the Indian Union, an **idea modelled on the American presidential system**. The communists objected to this 'American model', coining the slogan: "Throw the American model into the Arabian Sea.

Directions for the following 2 (two) items:
Read the following passage and answer the items that follow the passage. Your answers to these items should be based on the passage only

Passage - 1

Native to India, sal is the second most important tree after teak. It is valued for its use in furniture making, construction, the leaf-plate industry and for the oil obtained from its seeds. However, thousands of sal trees are destroyed every year due to borer infestations. The sal borer, a dark brown insect about the size of a human finger, is regarded as one of the most serious threats to forestry in India. Although it can infest other trees such as shisham, deodar, rubber and fruit trees, it causes the greatest damage to sal, where it lives and reproduces. The insect usually attacks weak or damaged trees, but healthy ones may also be affected. It is attracted to the sap and resin that flow

from a wounded tree. As a result, freshly cut or injured sal trees quickly draw these insects, which bore into the wood and hollow it out within a few days.

Q.46) Which one of the following statements best reflects the crux of the passage?
a) The sal borer is a particularly destructive pest because it attacks not only diseased trees but also healthy ones.
b) As the sal borer can infest several tree species, it is regarded as a major hindrance to forest conservation.
c) Sal borer is a major threat to the conservation and propagation of sal, which is an important commercial species.
d) Since the sal borer hollows out the tree within a few days, the scope for conservationists to revive the tree is minimal.

Ans) c
Exp) Option c is the correct answer.
Statement a is incorrect. The passage states "The insect usually attacks weak or damaged trees, but healthy ones may also be affected". However, statement a does not best reflect the crux of the passage as it **highlights only one aspect of sal borer infestations**.
Statement b is incorrect. The passage states "The sal borer, a dark brown insect about the size of a human finger, is regarded as one of the most serious threats to forestry in India." However, statement b does not best reflect the crux of the passage as it **does not focus on sal specifically**.
Statement c is correct. It best reflects the crux of the passage as it highlights **the importance of sal species while mentioning the threats it faces**. It is mentioned in the passage as "Native to India, sal is the second most important tree after teak. It is valued for its use in furniture making, construction, the leaf-plate industry and for the oil obtained from its seeds. However, thousands of sal trees are destroyed every year due to borer infestations"
Statement d is incorrect. While the passage states "freshly cut or injured sal trees quickly draw these insects, which bore into the wood and hollow it out within a few days", statement d does not best reflect the crux of the passage as it **focuses on one specific aspect of sal borer rather than highlighting the broader damage caused by it.**

Q.47) With reference to the above passage, the following assumptions have been made:
I. Sal trees require more specific protection against the sal borer compared to other tree species.
II. Given the threat posed by sal borer infestations, sal should be replaced by teak.
Which of the above assumptions is/are valid?
a) I only
b) II only
c) Both I and II
d) Neither I nor II

Ans) a
Exp) Option a is the correct answer.
Statement I is correct. The passage states "**Although it (sal borer) can infest other trees such as shisham, deodar, rubber and fruit trees, it causes the greatest damage to sal, where it lives and reproduces**." Therefore, we can conclude that assumption made in statement I is correct.
Statement II is incorrect. While the passage states "**thousands of sal trees are destroyed every year due to borer infestations**", it **does not mention that sal should be replaced by teak**. Therefore, the assumption is outside the scope of the passage and thus incorrect.

Q.48) What is the 725th digit in the number 24681012141618202224... ?
a) 0
b) 2
c) 5
d) 8

Ans) c
Exp) Option c is the correct answer.
The given number is formed by writing all **even natural numbers** one after another:
2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, ...
The task is to find the **725th digit**.
Count digits contributed by 1-digit even numbers
The 1-digit even numbers are: **2, 4, 6, 8**
There are **4** numbers, and each contributes **1** digit.
So total digits contributed = **4 × 1 = 4**
Remaining digits to locate: **725 − 4 = 721**
Count digits contributed by 2-digit even numbers
The 2-digit even numbers go from **10 to 98**.
Count of such numbers: **((98 − 10) / 2) + 1 = 45**
Each contributes **2** digits, so total digits contributed = **45 × 2 = 90**
Remaining digits: **721 − 90 = 631**
Locate the digit among 3-digit even numbers
Now the required digit lies in the sequence of 3-digit even numbers:
100, 102, 104, 106, ...
Each contributes **3** digits.
Now divide: **631 : 3 = 210 remainder 1**
This means:

- **210** complete 3-digit even numbers are covered
- the required digit is the **1st digit** of the **211th** 3-digit even number

Find the 211th 3-digit even number
The first 3-digit even number is **100**
Common difference = **2**
So the 211th term is:
100 + (211 − 1) × 2 = 100 + 210 × 2 = 100 + 420 = 520
So the required digit is the **1st digit of 520**, which is: **5**

Q.49) A cargo train overtakes a cyclist, P riding at 36 km/hr in the same direction, completely passing him in 24 seconds. The same train passes another cyclist Q riding at 18 km/hr in the opposite direction in exactly 12 seconds. What is the length of the cargo train?
a) 240 m
b) 300 m
c) 360 m
d) 420 m

Ans) c
Exp) Option c is the correct answer.
Let the speed of the train be **v km/hr** and its length be **L metres**.
Train overtakes cyclist P in the same direction

Cyclist P speed = **36 km/hr**
Relative speed = **(v − 36) km/hr**
Time taken = **24 seconds**
So, **L = (v − 36) × 24 × (5/18) [1 km/hr = 5/18 m/s]**
Therefore, **L = (v − 36) × 20/3** ...(1)
Train passes cyclist Q in the opposite direction
Cyclist Q speed = **18 km/hr**
Relative speed = **(v + 18) km/hr**
Time taken = **12 seconds**
So, **L = (v + 18) × 12 × (5/18)**
Therefore, **L = (v + 18) × 10/3** ...(2)
Equate the two expressions for L: From (1) and (2):
(v − 36) × 20/3 = (v + 18) × 10/3
Multiply both sides by 3: **20(v − 36) = 10(v + 18)**
Expand: **20v − 720 = 10v + 180**
10v = 900
v = 90 km/hr
Find the length of the train
Substitute v = 90 into (2):
L = (90 + 18) × 10/3
L = 108 × 10/3
L = 360 m

Q.50) What is X in the sequence
1, 3, 13, 61, 321, X ?
a) 1951
b) 1953
c) 1955
d) 1957

Ans) a
Exp) Option a is the correct answer.
Observe the relation between consecutive terms:
From **1 to 3**:
$1 \times 2 + 1^2 = 3$
From **3 to 13**:
$3 \times 3 + 2^2 = 13$
From **13 to 61**:
$13 \times 4 + 3^2 = 61$
From **61 to 321**:
$61 \times 5 + 4^2 = 321$
So,
X = 321 × 6 + 25
X = 1926 + 25
X = 1951
